**Telpar Introduces a Multiple Interface 8 1/2 in Direct Thermal Printer with USB and Ethernet**  
*Multiple Interfaces Include USB, Ethernet, Serial And Parallel Connectivity Options That Allow For Easier Integration*

**Dover, NH –(April 16, 2008)** – Telpar, one the of industries leading thermal printer manufacturer's specializing in design, manufacturing and distribution of self service Kiosk and specialty receipt printers, has improved upon its "Best-in-Class" Stealth Series thermal printer line with introduction of the MTP-2283i USB model. This new printer has USB and Ethernet connectivity options that allow for even easier integration and increased productivity in a wider range of self service and kiosk printer applications including; multimedia kiosks, gift registry, mapping, financial statements, pharmaceutical data, remote printing and product information applications.

The Stealth MTP-2283i USB thermal printers now offers additional connectivity options so users can easily integrate through USB 2.0, Ethernet, serial, and parallel interfaces, building on Telpar's tradition of delivering durable and reliable printers with unmatched performance characteristics.

To meet the needs of various applications, the printer accommodates up to an 8 ½ " Wide X 8" diameter roll of continuous paper that allows up to 1100 (8 1/2" X 11" (216 Mm X 79.4 Mm)) Sheets Per Roll at 300 dpi resolution and print speeds of 2 inches per second. Included is all the functionality of the current MTP-2283i series, Telpar patented looping presenter, with document retract or eject, automatically retracting the document back into the enclosure if it is not taken, helping guard circulation of client sensitive information and a straight paper path with flip-up print head access for performing machine service. The MTP2283i USB includes a rotary auto cutter has an operational life of 1 million cuts.

The new Stealth MTP-2283i USB printer has the same footprint as the current MTP-2283i for easy integration into legacy environments. And is built with metal frame for increased rigidity and durability in high use applications. The metal frame also provides better electrostatic discharge resistance than plastic. Other printer features include a flip-up print head access design, easy-load paper system to facilitate paper roll replacement. Several sensors provide paper low, out of paper, top of form, document in presenter, print head up, dropped document and cutter jam.

- MORE -

Print drivers are available for Windows 95, 98, 2000 and XP and to maximize the MTP-2283i USB configuration versatility, a flash memory allows storage for; print logos, bar codes, graphics, customer specific text, and website pages. The MTP-2283i USB firmware can be reflashed with upgrades when connected to a host PC.

“ We listened to the specific needs our customers, and worked closely with our engineers to address these requirements and are please to be able to introduce these products.” stated Vicki Pillsbury, Director of Manufacturing for Telpar,

Each unit is backed with a one-year factory warranty and Telpar’s technical service and support.

Available immediately, the RoHS compliant Stealth MTP-2283i USB comes with all four interfaces: USB, Ethernet, Serial, and parallel. To learn more about Telpar printing solutions, please visit [www.telpar.com](http://www.telpar.com)

### **About Telpar**

For over 30 years Telpar has been dedicated to innovative printer engineering, manufacturing and integration. Telpar designs, manufactures and distributes worldwide, its own line of direct thermal and impact Kiosk and specialty receipt printers. In addition, Telpar distributes printer mechanisms and control electronics products from; Advanced Printing Systems (APS), Citizen America, Epson America, and Fujitsu Components of America Inc. Telpar printer products are uniquely suited to Kiosk and Self-Service receipting or document generation, also, retail, health care applications, gift registry, medical monitoring, industrial instrumentation, and Cashless Gaming applications where a printed document is required. For more information, please consult our web site [www.telpar.com](http://www.telpar.com), or telephone 800-872-4886
